**WHARTON SPRINGS
NURSERY COMPANY**

SPENCER BING, Gen. Mgr.

A BUNCH OF YEAR OLDS

The Most Profitable Results are Obtained from orchards in which only one year old trees are planted.

ALL KINDS OF NURSERY STOCK
Smithville, Tennessee

PACKING

The important part of our business is done under our personal supervision and you can depend on the goods reaching you in good condition. We make no charge for packing and delivering goods to freight or express offices, except to nurserymen and dealers.

OUR GUARANTEE

While we exercise the greatest care to have every tree and plant true to name, and are ready, on proper proof, to replace anything sent by us that proves untrue to label, free of charge, it is understood and agreed between purchaser and ourselves, that we are not to be held liable for any greater sum than that paid us for said trees that may prove untrue.

NOTICE TO CORRESPONDENTS

Orders should be placed early before assortments are broken. Do not delay ordering until time for planting, as in this way it is often impossible to procure varieties wanted.

The necessity of giving plain and accurate shipping directions is of the greatest importance, in absence of which we use our best judgement. Our responsibility ceases when goods are delivered to forwarders.

If desired, we will sell stock for two-thirds cash and one-third on 12 months time without interest, to responsible parties who buy 500 or more.

**When Planting Apple be Sure to
Get Nice Young Stock as They
grow better than old stock. 2 to
3 feet grow better than any size**

TO OUR PATRONS:

In presenting you herewith our list of stock for the coming season we wish to thank our customers for past patronage and solicit a share of your future needs.

Our stock is free from disease, no San Jose Scale, or crown gall, and is all covered by an Entomologist's certificate a copy of which appears on each lot of stock sent out.

All orders entrusted to us shall have our best care and prompt attention.

We enter the season with a full line of leading varieties of all kinds of fruit trees, vines, plants, deciduous and weeping trees, evergreens, hedge, shrubbery climbing vines, roses, etc., especially apples, having a nice assortment of young, smooth, nicely headed stock made.

Our endeavor is to offer a full list of varieties best suited for market and home use, covering the entire season, weeding out kinds that do not generally succeed or that are superseded by newer varieties, offering in the newer introduction only such as we have reason to believe are improvements on the older sorts and will prove of permanent value.

Do not plant too many varieties; few kinds known to be desirable in your locality and market will prove a much better paying investment than a long list of a few of a kind. With over thirty years of experience in the nursery business and forty years careful experimenting in the growing and handling of fruits, with stock grown on our own grounds under our own personal supervision, graded to the highest standard, packed and handled right, we ask your favors, feeling confident of our ability to please you; fully realizing that honest dealing and pleased customers are the only basis of continued prosperity.

No other nursery has sent out the number of profitable orchard fruiting in South Ohio and West Virginia as has this concern. This fact is indisputable; however we are able and will be pleased to furnish abundance of reference at any time, referring you to the leading men in above territory who will corroborate this statement.

Those who contemplate setting commercial orchards will do well to get our list of commercial varieties, as we give special attention to placing orchards of this class and the greater per cent of our stock is of these varieties. It is not our ambition to be a low priced concern, but to offer stock as low as good goods, grown in a first class way, can be handled, and the gratifying increase in sales year by year assures us that our efforts to produce high grade nursery stock at reasonable prices are appreciated.
